## ABOUT ME

I'm a passionate and skilled Full Stack Developer with a strong focus on Bitcoin and blockchain technology. My expertise lies in building robust and innovative applications that leverage the power of JavaScript, PHP, Java, and React to create seamless and secure user experiences in the world of Bitcoin.

I am deeply fascinated by the revolutionary potential of Bitcoin and blockchain, and I constantly strive to contribute to the growth and development of this groundbreaking technology.

## PERSONAL PROJECTS

Julio 2023

- Blogging app: I embarked on creating a unique and innovative blogging app that not only allows users to publish their content but also empowers them to earn Bitcoin tips from their audience empowered by Inbits. This app comes equipped with an automated wallet creation feature, enabling users to receive tips directly into their personal wallets for each blog they upload.
